Index of Subjects

Age
Interaction of dietary protein, cholesterol and age on lipid metabolism of the rat. **61**, 531, 1989

Amino acid degradation
Degradation and outflow of amino acids from the rumen of sheep. **61**, 397, 1989

Amino acid digestibility
Associative effects between two fibre sources on ileal and overall digestibilities of amino acids, energy and cell-wall components in growing pigs. **61**, 75, 1989

α-Amylase resistant starch
Utilization of α-amylase (*EC* 3.2.1.1) resistant maize and pea (*Pisum sativum*) starch in the rat. **61**, 291, 1989

Anaemia
Bioavailability of total iron from meat, spinach (*Spinacea oleracea* L.) and meat–spinach mixtures by anaemic and non-anaemic rats. **61**, 331, 1989

Anthropometry
Assessment of adipose tissue distribution by computed axial tomography in obese women: association with body density and anthropometric measurements. **61**, 139, 1989
The effect of lactation and other factors on postpartum changes in body-weight and triceps skinfold thickness. **61**, 149, 1989

Antioxidant enzymes
Effects of copper deficiency on hepatic and cardiac antioxidant enzyme activities in lactose- and sucrose-fed rats. **61**, 345, 1989

Arachidonic acid
High arachidonic acid levels in the cord blood of infants of mothers on vegetarian diets. **61**, 89, 1989

Artificially reared rat
Milk-substitutes comparable to rat's milk; their preparation, composition and impact on development and metabolism in the artificially reared rat. **61**, 495, 1989

Ascorbic acid
Ascorbic acid concentration of human fetal tissues in relation to fetal size and gestational age. **61**, 601, 1989

Atherosclerotic lesions
Potentiation of atherosclerotic lesions in rabbits by a high dietary level of vitamin E. **61**, 607, 1989

Baked beans
The effect of daily baked bean (*Phaseolus vulgaris*) consumption on the plasma lipid levels of young, normo-cholesterolaemic men. **61**, 257, 1989

Basal metabolic rate
The effect of exercise and improved physical fitness on basal metabolic rate. **61**, 155, 1989

Bile acid conjugation
Predominant conjugation with glycine of biliary and lumen bile acids in rats fed on pectin. **61**, 545, 1989

Biotin deficiency
Influences of biotin deficiency and dietary *trans*-fatty acids on tissue lipids in chickens. **61**, 99, 1989

Body fat
Body composition of lactating women determined by anthropometry and deuterium dilution. **61**, 25, 1989

Body-weight changes
The effect of lactation and other factors on postpartum changes in body-weight and triceps skinfold thickness. **61**, 149, 1989

Breast feeding
The effect of lactation and other factors on postpartum changes in body-weight and triceps skinfold thickness. **61**, 149, 1989

Breast-milk
Longitudinal manganese and copper balances in young infants and preterm infants fed on breast-milk and adapted cow's milk formulas. **61**, 559, 1989

Brown adipose tissue
Riboflavin deficiency, metabolic rate and brown adipose tissue function in sucking and weanling rats. **61**, 475, 1989

Calcium absorption
The effect of ruminal phosphate concentration on the absorption of calcium, phosphorus and magnesium from the reticulo-rumen of the sheep. **61**, 715, 1989

Calcium metabolism
Kinetic aspects of calcium metabolism in lactating sheep offered herbages with different Ca concentrations and the effect of protein supplementation. **61**, 45, 1989
Faecal endogenous loss of calcium in young sheep. **61**, 59, 1989

Carnitine
Liver function in protein–energy malnutrition measured by cinnamic acid tolerance and benzoic acid tolerance: effect of carnitine supplementation. **61**, 209, 1989

Cholesterol
The effect of daily baked bean (*Phaseolus vulgaris*) consumption on the plasma lipid levels of young, normo-cholesterolaemic men. **61**, 257, 1989
Interaction of dietary protein, cholesterol and age on lipid metabolism of the rat. **61**, 531, 1989
Predominant conjugation with glycine of biliary and lumen bile acids in rats fed on pectin. **61**, 545, 1989

Potentiation of atherosclerotic lesions in rabbits by a high dietary level of vitamin E. **61**, 607, 1989

Colloid osmotic pressure

Plasma proteins in growing analbuminaemic rats fed on a diet of low-protein content. **61**, 485, 1989

Computed axial tomography

Assessment of adipose tissue distribution by computed axial tomography in obese women: association with body density and anthropometric measurements. **61**, 139, 1989

Copper

Profiles of ^{67}Cu in blood, bile, urine and faeces from ^{67}Cu-primed lambs: effect of ^{99}Mo-labelled tetrathiomolybdate on the metabolism of recently stored tissue ^{67}Cu. **61**, 355, 1989

Profiles of ^{67}Cu in blood, bile, urine and faeces from ^{67}Cu-primed lambs: effect of ^{99}Mo-labelled tetrathiomolybdate on the metabolism of ^{67}Cu after long-term storage. **61**, 373, 1989

Longitudinal manganese and copper balances in young infants and preterm infants fed on breast-milk and adapted cow's milk formulas. **61**, 559, 1989

Copper deficiency

Effects of copper deficiency on hepatic and cardiac antioxidant enzyme activities in lactose- and sucrose-fed rats. **61**, 345, 1989

Cord blood arachidonic acid

High arachidonic acid levels in the cord blood of infants of mothers on vegetarian diets. **61**, 89, 1989

Corticosterone

Energy balance in rats given chronic hormone treatment. 2. Effects of corticosterone. **61**, 445, 1989

Cysteine

Changes in glutathione status and 3,5,3′-triiodothyronine action in livers of rats given cysteine-deficient diets. **61**, 301, 1989

Inhibitory effects of sulphur compounds, copper and tungsten on nitrate reduction by mixed rumen micro-organisms. **61**, 741, 1989

Dental caries

Dental and metabolic effects of lactitol in the diet of laboratory rats. **61**, 17, 1989

Diabetes

The effect of incorporating fat into different components of a meal on gastric emptying and postprandial blood glucose and insulin responses. **61**, 285, 1989

Dietary carbohydrate:fat ratio

Effects of varying the carbohydrate:fat ratio in a hot lunch on postprandial variables in male volunteers. **61**, 267, 1989

Dietary fat

The effect of a low-fat diet on luteal-phase prolactin and oestradiol concentrations and erythrocyte phospholipids in normal premenopausal women. **61**, 651, 1989

Dietary fibre

Effects of guar gum on plasma urea, insulin and glucose in the growing pig. **61**, 67, 1989

Associative effects between two fibre sources on ileal and overall digestibilities of amino acids, energy and cell-wall components in growing pigs. **61**, 75, 1989

Predominant conjugation with glycine of biliary and lumen bile acids in rats fed on pectin. **61**, 545, 1989

An in vitro method for studying digestion in the pig. 1. Simulating digestion in the different compartments of the intestine. **61**, 673, 1989

An in vitro method for studying digestion in the pig. 2. Comparison with in vivo ileal and faecal digestibilities. **61**, 689, 1989

Dietary protein

In vitro Na^+,K^+ATPase (*EC* 3.6.1.3)-dependent respiration and protein synthesis in skeletal muscle of pigs fed at three dietary protein levels. **61**, 453, 1989

Interaction of dietary protein, cholesterol and age on lipid metabolism of the rat. **61**, 531, 1989

Digestion, in vitro

An in vitro method for studying digestion in the pig. 1. Simulating digestion in the different compartments of the intestine. **61**, 673, 1989

An in vitro method for studying digestion in the pig. 2. Comparison with in vivo ileal and faecal digestibilities. **61**, 689, 1989

Duodenal flow

The effects of intake of lucerne (*Medicago sativa* L.) and orchard grass (*Dactylis glomerata* L.) hay on the motility of the forestomach and digesta flow at the abomaso-duodenal junction of the sheep. **61**, 699, 1989

Egg-shell quality

Physiological changes associated with the production of defective egg-shells by hens receiving sodium chloride in the drinking water. **61**, 35, 1989

Endogenous calcium loss

Faecal endogenous loss of calcium in young sheep. **61**, 59, 1989

Energy balance

Energy balance in rats given chronic hormone treatment. 1. Effects of long-acting insulin. **61**, 437, 1989

Energy balance in rats given chronic hormone treatment. 2. Effects of corticosterone. **61**, 445, 1989

Energy expenditure

The effect of exercise and improved physical fitness on basal metabolic rate. **61**, 155, 1989

The use of heart rate monitoring in the estimation of energy expenditure: a validation study using indirect whole-body calorimetry. **61**, 175, 1989

Changes in energy expenditure during the menstrual cycle. **61**, 187, 1989

Energy intake

Influence of dietary non-protein energy intake on whole-body protein turnover in chicks. **61**, 235, 1989

Energy metabolism

Dental and metabolic effects of lactitol in the diet of laboratory rats. **61**, 17, 1989

Exercise

The effect of exercise and improved physical fitness on basal metabolic rate. **61**, 155, 1989

Fasting
Metabolic changes in Asian Muslim pregnant mothers observing the Ramadan fast in Britain. **61**, 663, 1989

Fat-free mass
Body composition of lactating women determined by anthropometry and deuterium dilution. **61**, 25, 1989

Fatty acids
Influences of biotin deficiency and dietary *trans*-fatty acids on tissue lipids in chickens. **61**, 99, 1989
Effects of dietary *trans*-fatty acids on reproductive performance of Wistar rats. **61**, 519, 1989

Feed-adherent bacteria
Distribution of bacteria in the rumen contents of dairy cows given a diet supplemented with soya-bean oil. **61**, 725, 1989

Feeding regimens
Protein and energy relations in the broiler chicken. Chronic or acute effects of alternating protein or intermittent feeding regimens on broiler lipid metabolism. **61**, 223, 1989
Muscle growth and composition in heavy and light breed chickens adapted to intermittent feeding. **61**, 245, 1989

Fetal size
Ascorbic acid concentration of human fetal tissues in relation to fetal size and gestational age. **61**, 601, 1989

Foam production
Relations between passage rates of rumen fluid and particulate matter on foam production in rumen contents of cattle fed on different diets *ad lib*. **61**, 387, 1989

Folates
Serum folates in young dairy heifers. **61**, 595, 1989

Food intake
The effects of intake of lucerne (*Medicago sativa* L.) and orchard grass (*Dactylis glomerata* L.) hay on the motility of the forestomach and digesta flow at the abomaso-duodenal junction of the sheep. **61**, 699, 1989

Forestomach motility
The effects of intake of lucerne (*Medicago sativa* L.) and orchard grass (*Dactylis glomerata* L.) hay on the motility of the forestomach and digesta flow at the abomaso-duodenal junction of the sheep. **61**, 699, 1989

Gastric emptying
The effect of incorporating fat into different components of a meal on gastric emptying and postprandial blood glucose and insulin responses. **61**, 285, 1989

Glutathione
Changes in glutathione status and 3,5,3′-triiodothyronine action in livers of rats given cysteine-deficient diets. **61**, 301, 1989

Guar gum
Effects of guar gum on plasma urea, insulin and glucose in the growing pig. **61**, 67, 1989

Heart rate
The use of heart rate monitoring in the estimation of energy expenditure: a validation study using indirect whole-body calorimetry. **61**, 175, 1989

Heat production
Influence of dietary non-protein energy intake on whole-body protein turnover in chicks. **61**, 235, 1989

Herbage diets
Faecal endogenous loss of calcium in young sheep. **61**, 59, 1989

Human fetus
Ascorbic acid concentration of human fetal tissues in relation to fetal size and gestational age. **61**, 601, 1989

Ileostomy effluent
Nitrite and nitrate levels in ileostomy effluent: effect of dietary change. **61**, 323, 1989

Insulin
Effects of varying the carbohydrate:fat ratio in a hot lunch on postprandial variables in male volunteers. **61**, 267, 1989
The effect of incorporating fat into different components of a meal on gastric emptying and postprandial blood glucose and insulin responses. **61**, 285, 1989
Energy balance in rats given chronic hormone treatment. 1. Effects of long-acting insulin. **61**, 437, 1989

Intermittent feeding
Muscle growth and composition in heavy and light breed chickens adapted to intermittent feeding. **61**, 245, 1989

Iron absorption
Effects of dietary iron deficiency and tungsten supplementation on ^{59}Fe absorption and gastric retention from ^{59}Fe compounds in rats. **61**, 573, 1989

Iron bioavailabity
Bioavailability of total iron from meat, spinach (*Spinacea oleracea* L.) and meat–spinach mixtures by anaemic and non-anaemic rats. **61**, 331, 1989

Kilkenny Health Project
The Kilkenny Health Project: food and nutrient intakes in randomly selected healthy adults. **61**, 129, 1989

Lactation
Kinetic aspects of calcium metabolism in lactating sheep offered herbages with different Ca concentrations and the effect of protein supplementation. **61**, 45, 1989

Lactitol
Dental and metabolic effects of lactitol in the diet of laboratory rats. **61**, 17, 1989

Lactose
Effects of copper deficiency on hepatic and cardiac antioxidant enzyme activities in lactose- and sucrose-fed rats. **61**, 345, 1989

Legumes
The effect of daily baked bean (*Phaseolus vulgaris*) consumption on the plasma lipid levels of young, normo-cholesterolaemic men. **61**, 257, 1989

Leucine
Effects of a dietary excess of leucine and of the addition of leucine and 2-oxo-isocaproate on the metabolism of tryptophan and niacin in isolated rat liver cells. **61**, 629, 1989

Linoleate
Influences of biotin deficiency and dietary *trans*-fatty acids on tissue lipids in chickens. **61**, 99, 1989
Lipid metabolism
Effects of dietary *trans*-fatty acids on reproductive performance of Wistar rats. **61**, 519, 1989
Interaction of dietary protein, cholesterol and age on lipid metabolism of the rat. **61**, 531, 1989
Lipid supplement
Distribution of bacteria in the rumen contents of dairy cows given a diet supplemented with soya-bean oil. **61**, 725, 1989
Lipogenesis
Protein and energy relations in the broiler chicken. Chronic or acute effects of alternating protein or intermittent feeding regimens on broiler lipid metabolism. **61**, 223, 1989
Liver function tests
Liver function in protein–energy malnutrition measured by cinnamic acid tolerance and benzoic acid tolerance: effect of carnitine supplementation. **61**, 209, 1989
Lucerne
Particle breakdown and rumen digestion of fresh ryegrass (*Lolium perenne* L.) and lucerne (*Medicago sativa* L.) fed to cows during a restricted feeding period. **61**, 409, 1989
Magnesium
Effect of change of diet on the mineral composition of rumen fluid, on magnesium metabolism and on water balance in sheep. **61**, 583, 1989
Malnutrition
Plasma proteins in growing analbuminaemic rats fed on a diet of low-protein content. **61**, 485, 1989
Manganese
Longitudinal manganese and copper balances in young infants and preterm infants fed on breast-milk and adapted cow's milk formulas. **61**, 559, 1989
Meat
Bioavailability of total iron from meat, spinach (*Spinacea oleracea* L.) and meat–spinach mixtures by anaemic and non-anaemic rats. **61**, 331, 1989
Menstrual cycle
Changes in energy expenditure during the menstrual cycle. **61**, 187, 1989
Metabolic changes during the menstrual cycle. **61**, 641, 1989
Metabolic rate
The effect of ouabain on metabolic rate in guinea-pigs: estimation of energy cost of sodium pump activity. **61**, 467, 1989
Riboflavin deficiency, metabolic rate and brown adipose tissue function in sucking and weanling rats. **61**, 475, 1989
Milk-substitutes
Milk-substitutes comparable to rat's milk; their preparation, composition and impact on development and metabolism in the artificially reared rat. **61**, 495, 1989
Minerals
Minerals and trace elements in total diets in The Netherlands. **61**, 7, 1989
Molybdenum
Profiles of ^{67}Cu in blood, bile, urine and faeces from ^{67}Cu-primed lambs: effect of ^{99}Mo-labelled tetrathiomolybdate on the metabolism of recently stored tissue ^{67}Cu. **61**, 355, 1989
Profiles of ^{67}Cu in blood, bile, urine and faeces from ^{67}Cu-primed lambs: effect of ^{99}Mo-labelled tetrathiomolybdate on the metabolism of ^{67}Cu after long-term storage. **61**, 373, 1989
Muscle growth and composition
Muscle growth and composition in heavy and light breed chickens adapted to intermittent feeding. **61**, 245, 1989
Na^+,K^+-ATPase
In vitro Na^+,K^+ATPase (*EC* 3.6.1.3)-dependent respiration and protein synthesis in skeletal muscle of pigs fed at three dietary protein levels. **61**, 453, 1989
Niacin
Effects of a dietary excess of leucine and of the addition of leucine and 2-oxo-isocaproate on the metabolism of tryptophan and niacin in isolated rat liver cells. **61**, 629, 1989
Nitrate
Nitrite and nitrate levels in ileostomy effluent: effect of dietary change. **61**, 323, 1989
Nitrate reduction
Inhibitory effects of sulphur compounds, copper and tungsten on nitrate reduction by mixed rumen micro-organisms. **61**, 741, 1989
Nitrite
Nitrite and nitrate levels in ileostomy effluent: effect of dietary change. **61**, 323, 1989
Inhibitory effects of sulphur compounds, copper and tungsten on nitrate reduction by mixed rumen micro-organisms. **61**, 741, 1989
Nitrogen metabolism
Nitrogen metabolism and urinary excretion of purines in goat kids. **61**, 309, 1989
Nitrogen supplementation
The importance of the form of nitrogen on microbial protein synthesis in the rumen of cattle receiving grass silage and continuous intrarumen infusions of sucrose. **61**, 113, 1989
Noradrenaline
Thermogenic responses to graded doses of noradrenaline in undernourished Indian male subjects. **61**, 201, 1989
Nutrient intakes
The Kilkenny Health Project: food and nutrient intakes in randomly selected healthy adults. **61**, 129, 1989
Obesity
Assessment of adipose tissue distribution by computed axial tomography in obese women: association with body density and anthropometric measurements. **61**, 139, 1989
Oedema
Plasma proteins in growing analbuminaemic rats fed on a diet of low-protein content. **61**, 485, 1989
Oestradiol
The effect of a low-fat diet on luteal-phase prolactin

and oestradiol concentrations and erythrocyte phospholipids in normal premenopausal women. **61**, 651, 1989

Phosphate absorption
The effect of ruminal phosphate concentration on the absorption of calcium, phosphorus and magnesium from the reticulo-rumen of the sheep. **61**, 715, 1989

Plasma lipids
The effect of daily baked bean (*Phaseolus vulgaris*) consumption on the plasma lipid levels of young, normo-cholesterolaemic men. **61**, 257, 1989

Plasma urea
Effects of guar gum on plasma urea, insulin and glucose in the growing pig. **61**, 67, 1989

Pregnancy
Metabolic changes in Asian Muslim pregnant mothers observing the Ramadan fast in Britain. **61**, 663, 1989

Premenopausal women
The effect of a low-fat diet on luteal-phase prolactin and oestradiol concentrations and erythrocyte phospholipids in normal premenopausal women. **61**, 651, 1989

Prolactin
The effect of a low-fat diet on luteal-phase prolactin and oestradiol concentrations and erythrocyte phospholipids in normal premenopausal women. **61**, 651, 1989

Protein supplements
Kinetic aspects of calcium metabolism in lactating sheep offered herbages with different Ca concentrations and the effect of protein supplementation. **61**, 45, 1989

Protein synthesis
In vitro Na^+,K^+ATPase (*EC* 3.6.1.3)-dependent respiration and protein synthesis in skeletal muscle of pigs fed at three dietary protein levels. **61**, 453, 1989

Protein turnover
Influence of dietary non-protein energy intake on whole-body protein turnover in chicks. **61**, 235, 1989

Protein–energy malnutrition
Liver function in protein–energy malnutrition measured by cinnamic acid tolerance and benzoic acid tolerance: effect of carnitine supplementation. **61**, 209, 1989

Purine excretion
Nitrogen metabolism and urinary excretion of purines in goat kids. **61**, 309, 1989

Ramadan in Britain
Metabolic changes in Asian Muslim pregnant mothers observing the Ramadan fast in Britain. **61**, 663, 1989

Rat milk-substitutes
Milk-substitutes comparable to rat's milk; their preparation, composition and impact on development and metabolism in the artificially reared rat. **61**, 495, 1989

Reproduction
Effects of dietary *trans*-fatty acids on reproductive performance of Wistar rats. **61**, 519, 1989

Riboflavin deficiency
Riboflavin deficiency, metabolic rate and brown adipose tissue function in sucking and weanling rats. **61**, 475, 1989

Rumen amino acid outflow
Degradation and outflow of amino acids from the rumen of sheep. **61**, 397, 1989

Rumen bacteria
Distribution of bacteria in the rumen contents of dairy cows given a diet supplemented with soya-bean oil. **61**, 725, 1989
Inhibitory effects of sulphur compounds, copper and tungsten on nitrate reduction by mixed rumen micro-organisms. **61**, 741, 1989

Rumen development
Serum folates in young dairy heifers. **61**, 595, 1989

Rumen digestion
Particle breakdown and rumen digestion of fresh ryegrass (*Lolium perenne* L.) and lucerne (*Medicago sativa* L.) fed to cows during a restricted feeding period. **61**, 409, 1989

Rumen fluid
Effect of change of diet on the mineral composition of rumen fluid, on magnesium metabolism and on water balance in sheep. **61**, 583, 1989

Rumen kinetics
Relations between passage rates of rumen fluid and particulate matter on foam production in rumen contents of cattle fed on different diets *ad lib*. **61**, 387, 1989

Rumen metabolism
The importance of the form of nitrogen on microbial protein synthesis in the rumen of cattle receiving grass silage and continuous intrarumen infusions of sucrose. **61**, 113, 1989
The effect of ruminal phosphate concentration on the absorption of calcium, phosphorus and magnesium from the reticulo-rumen of the sheep. **61**, 715, 1989

Ryegrass
Particle breakdown and rumen digestion of fresh ryegrass (*Lolium perenne* L.) and lucerne (*Medicago sativa* L.) fed to cows during a restricted feeding period. **61**, 409, 1989

Shell-gland fluid
Physiological changes associated with the production of defective egg-shells by hens receiving sodium chloride in the drinking water. **61**, 35, 1989

Silage diets
The importance of the form of nitrogen on microbial protein synthesis in the rumen of cattle receiving grass silage and continuous intrarumen infusions of sucrose. **61**, 113, 1989

Sodium chloride
Physiological changes associated with the production of defective egg-shells by hens receiving sodium chloride in the drinking water. **61**, 35, 1989

Sodium pump
The effect of ouabain on metabolic rate in guinea-pigs: estimation of energy cost of sodium pump activity. **61**, 467, 1989

Spinach
Bioavailability of total iron from meat, spinach

(*Spinacea oleracea* L.) and meat–spinach mixtures by anaemic and non-anaemic rats. **61**, 331, 1989

Starch
Utilization of α-amylase (*EC* 3.2.1.1) resistant maize and pea (*Pisum sativum*) starch in the rat. **61**, 291, 1989

Steroid hormones
Effects of vitamin B_6 deficiency and repletion on the uptake of steroid hormones into uterus slices and isolated liver cells of rats. **61**, 619, 1989

Thermogenic response
Thermogenic responses to graded doses of noradrenaline in undernourished Indian male subjects. **61**, 201, 1989

Thiomolybdate
Profiles of ^{67}Cu in blood, bile, urine and faeces from ^{67}Cu-primed lambs: effect of ^{99}Mo-labelled tetrathiomolybdate on the metabolism of recently stored tissue ^{67}Cu. **61**, 355, 1989
Profiles of ^{67}Cu in blood, bile, urine and faeces from ^{67}Cu-primed lambs: effect of ^{99}Mo-labelled tetrathiomolybdate on the metabolism of ^{67}Cu after long-term storage. **61**, 373, 1989

Total body water
Body composition of lactating women determined by anthropometry and deuterium dilution. **61**, 25, 1989

Total diets
Minerals and trace elements in total diets in The Netherlands. **61**, 7, 1989

Trace elements
Minerals and trace elements in total diets in The Netherlands. **61**, 7, 1989

3,5,3′-Triiodothyronine
Changes in glutathione status and 3,5,3′-triiodothyronine action in livers of rats given cysteine-deficient diets. **61**, 301, 1989

Tryptophan
Effects of a dietary excess of leucine and of the addition of leucine and 2-oxo-isocaproate on the metabolism of tryptophan and niacin in isolated rat liver cells. **61**, 629, 1989

Tungsten supplementation
Effects of dietary iron deficiency and tungsten supplementation on ^{59}Fe absorption and gastric retention from ^{59}Fe compounds in rats. **61**, 573, 1989

Undernutrition
Thermogenic responses to graded doses of noradrenaline in undernourished Indian male subjects. **61**, 201, 1989

Urinary purines
Nitrogen metabolism and urinary excretion of purines in goat kids. **61**, 309, 1989

Vegetarian mothers
High arachidonic acid levels in the cord blood of infants of mothers on vegetarian diets. **61**, 89, 1989

Vitamin B_6 deficiency
Effects of vitamin B_6 deficiency and repletion on the uptake of steroid hormones into uterus slices and isolated liver cells of rats. **61**, 619, 1989

Vitamin E
Potentiation of atherosclerotic lesions in rabbits by a high dietary level of vitamin E. **61**, 607, 1989

Water balance
Effect of change of diet on the mineral composition of rumen fluid, on magnesium metabolism and on water balance in sheep. **61**, 583, 1989

Whole-body calorimetry
The use of heart rate monitoring in the estimation of energy expenditure: a validation study using indirect whole-body calorimetry. **61**, 175, 1989
